

A Full Range of Accessories

#1 - ID: WVA-063

Universal Adapter (Standard)

Brilliantly simple and reusable. Quickly pops-on virtually any filler neck. Save money, no costly replacement seals needed. Use with any smoke machine or other leak detection device. 5-year warranty.

#2 - ID: WVA-064

Universal Adapter (for BMW/MINI)

Brilliantly simple and reusable. Quickly pops-on virtually any BMW or MINI neck. Save money, no costly replacement seals needed. Use with any machine or other leak detection device. 5 year warranty.

#3 - ID: WVA-01

Standard Cone Adapter

SIZE: 1" x 3 1/2" x 6" long
Used to introduce smoke into standard intake and exhaust systems.

#4 - ID: WVA-067

Large Cone Adapter

SIZE: 3.5" x 6" x 4.5" long
Used to introduce smoke into engine intake systems and large exhaust systems.

#5 - ID: WVA-02

Assorted Cap-plug Set

Cap Plug Kit Ranging in sizes from 1 3/4" to 4 1/2" and 1/8" to 3/16", designed to seal a wide range of openings. Useful for inside and outside diameter openings, each is made from molded vinyl.

#6 - ID: P0716UV

UltraTraceUV[®] Smoke Solution (16 oz)

This is a 16 oz. bottle of OEM-Approved UV smoke producing solution, good for about 500 tests.

#7 - ID: P0712UV

UltraTraceUV[®] Smoke Solution (12 oz)

This is a 12 oz bottle of OEM-Approved UV smoke producing solution good for about 300 tests.

#8 - ID: HS400AC

400,000 CP Halogen Spot Lamp

(20' power leads & clips)
This heavy duty 400,000 candle power halogen spotlight makes smoke existing leaks even easier to see.

#9 - ID: WVA-065

Combination White/UV Light

includes yellow glasses & Batteries
White light, for easier smoke location and ultraviolet (UV) light, to highlight the fluorescent dye deposited at the exact location of a leak.

#10 - ID: WVA-06

EVAP Service Port Adapter Fitting (Standard Size)

Evap Service Port Kit (OBD-II) Standard size adapter; connects to most factory-installed fittings for accessing OBD-II EVAP system.

#11 - ID: WVA-042

EVAP Service Port Adaptor Fitting (Small Size)

Fits some Ford products.

#12 - Product ID: WVA-049

Dual-Size Schrader Removal/Installation Tool

Removal and Installation tool for EVAP service ports.

#13 - ID: WVA-03

Smoke Diffuser (for finding wind/water leaks)

Slows and concentrates smoke for use in diagnosing wind & water leaks in vehicle passenger compartments.

#14 - ID: 200-22-227NG

Pre-set Gas Flow Regulator 100 PSI

100 PSI pre-set Gas Flow Regulator. No adjustments to fool with, always guarantees proper operating pressure for any Vacutec Smoke machine. Easily connects to nitrogen cylinder and to coiled hose (Part No. WVA-041). Maximum inlet pressure is 3,000 psig.

#15 - ID: WVA-041

1/4" x 25' Coiled Hose

(Nitrogen hose to Evap Tester)

25' coiled hose connects between the nitrogen cylinder and smoke machine. Designed to easily connect with the 100 PSI Gas Flow Regulator (Part No. 200-22-227NG).

#16 - ID: WVA-050

Cart Station

Exclusive heavy-duty, black powder-coated cart holds EVAPro or EELD601 securely in place allowing for easy transport anywhere in the service bay. Specially designed tray conveniently carries nitrogen tank. Extra lower shelf holds accessories, hand tools and more.

#17 - WVA-60

Inert Gas Pack:

Designed to work in combination with Vacutec Smoke machines. Includes 20 Oz liquid CO2 bottle and regulator. (Smoke Machine sold separately)(CO2 bottle arrives empty)

More Models Than Any Other Brand

"The Original Smoke Machine!"

All models shown below are OEM-approved for EVAP & General Purpose leak detection, including UltraTraceUV[®] dye solution.

WV604 - LeakFinder[™]

- Portable, simple one-button design
 - Weight 10 lbs. 13.5" x 13" x 9" wide
- Includes the following accessories, item 3, 5, 7, 9, 10, 12, 13 listed on back cover.

EELD601

- Large "Full Range" Flow Meter that will quantify and locate .080" gross / .040" & .020" and smaller leaks
- Includes the following accessories, item 3, 5, 6, 8, 10, 12 listed on back cover.

WV605 - LeakFinder[™]

- Advanced Design
 - Large "Full Range" Flow Meter with .010"
 - Smoke Volume Control
 - Test with or without smoke
 - Weight 10.5 lbs. 13.5" x 13" x 9" wide
- Includes the following accessories, item 3, 4, 5, 7, 9, 10, 12, 13, 15 listed and back cover.

EVAPro 2000E

- Approved by Ford Motor Company and Lexus/Toyota
 - Large "Full Range" Flow Meter
 - Built-in upgradeable calibration standard to keep pace with "Future" leak standard changes
 - Test with or without smoke
- Includes the following accessories, item 3, 5, 6, 8, 10, 11, 12, 13, 15

WV522B - with Nitrogen Generator

- Approved by BMW, Ford, Jaguar, Land Rover and Mercedes-Benz
 - PSA Nitrogen Generator that uses shop air to supply nitrogen for all leak detecting, eliminating the need to purchase inert gas
 - Built-in upgradeable calibration standard to keep pace with "Future" leak standard changes
 - Large "Full Range" Flow Meter
 - Pressure & Vacuum Decay
- Includes the following accessories, item 3, 5, 6, 8, 10, 11, 12, 13 and a UV light not shown

Vacutec[®] smoke machines offer the latest in leak detection

solutions for general purpose leak detection as well as EVAP testing and troubleshooting. Built with patented STAR OEM-Approved Smoke Technology *inside*, you can be confident that no matter which Vacutec[®] model you choose you will be relying on the very same smoke technology found in 100% of the smoke machines in all OEM essential tool programs. No matter what volume of leak detection and troubleshooting your shop does, Vacutec[®] has a model designed to meet your needs.

Product Feature Comparison Chart

	Model Number >	WV604	EELD601	WV605	EVAPro / 2000E	WV522B
1	2-Year Warranty (WV522B 2 nd year offered for a fee).	✓	✓	✓	✓	✓
2	Utilizes Patented STAR Technology: the <u>Only</u> OEM-Approved Smoke Technology.	✓	✓	✓	✓	✓
3	Patented UltraTraceUV [®] smoke solution; deposits dye at exact leak location.	✓	✓	✓	✓	✓
4	Free additional UltraTraceUV [®] smoke solution; good for hundreds of tests.	✓	✓	✓	✓	✓
5	Operates with shop air or inert gas*	✓	✓	✓	✓	✓ *
6	Electronic Safety Valve automatically shuts off flow into the vehicle's EVAP system every time machine turns off. Prevents gas fumes from filling your work bays.	✓	✓	✓	✓	✓
7	Auto-correct EVAP pressure setting; non-adjustable to avoid EVAP over-pressure.	✓	✓	✓	✓	✓
8	Super lightweight portable design.	✓		✓		
9	Large flow meter detects: gross (.080") small (.040") and very small (.020") & even .010" leaks.		✓	✓	✓	✓
10	Non-smoke "Test" mode (in addition to smoke mode).			✓	✓	✓
11	Smoke Flow Volume Control.			✓		
12	Same full-feature design as chosen by most OEMs, includes: Precise internal EVAP calibration orifice and "Future" upgradeable.				✓	✓
13	Built-in PSA nitrogen generator; connects to shop air and automatically produces high-purity Nitrogen.					✓
14	Vacuum-decay test to verify leaks when cannot be verified using pressure. Also performs pressure-decay.					✓
15	Our first four models are approved for flex-fuel vehicles when used with inert gas.	✓	✓	✓	✓	✓
